

# INTERNET SERVICES

Dedicated High Performance Internet Services for your Business Applications

## At a Glance

Leverage the power of the Internet of Things (IoT), Cloud Computing and Data Analytics in the critical exchange of real time business data between customers, suppliers and your own applications with Dedicated Internet Services from Cogeco Peer 1.

## Feature Overview

- Industry leading availability and TTR (Time to Restore) Service Level Agreement
- Dedicated Fibre Access provides symmetric speeds of up to 10Gbps
- Choice of flat rate Dedicated Internet or Burstable Internet in support of unexpected application demand

## Advantages

- 24x7 Help Desk provides a single point of contact for all of your service inquiries
- Converged Service Flexibility – Integrate your Internet, Data, Voice, Cloud and Disaster Recovery onto a single, secure fibre access
- Service Scalability from 5 Mbps to 10 Gbps (in select locations) in selected increments. High Availability and Fully Managed options meet your application performance and availability demands
- Available Distributed Denial of Service (DDoS) Shield provides real time mitigation of Denial of Service attacks

## Why Cogeco Peer 1

### Your Partner in IT Infrastructure

As a globally recognized provider of Colocation, Cloud and Managed IT services, we understand the importance of your network in the delivery of critical business applications.

### Performance, Reliability and Scalability

Our next generation 100 Gbps ready IP Network is built on a highly redundant architecture and designed to route your traffic to Internet destinations with the fewest hops and the lowest possible latency. Our Internet Service includes industry leading Service Level Agreements that deliver up to 99.999% service availability and three-hour TTR in Toronto, four-hour MTTR in Montreal.

### Application Security

Our unique DDoS Shield protection proactively detects and filters malicious traffic before it impacts your network application's performance.

### Total Service Flexibility

Securely combine Internet, Voice, Data, Backup and Disaster Recovery infrastructure requirements over a single fibre access. You can realize efficiencies without compromising performance and reliability. Choose from either fixed connection speeds or burstable service that dynamically adapts to your application demands.

### Superior Customer Experience

We understand that building trust with your service partner is critical to your business. Cogeco Peer 1 solutions provide you with a single point of contact for managing all of your Cloud, Colocation, Security, Managed IT, Voice and Connectivity needs.
