Enhance operational efficiencies with our trusted colocation solutions. You will get access to advanced cooling systems, uninterrupted power infrastructure, robust fire detection and suppression systems, as well as multi-layered security and surveillance systems to keep your technology safe.

Gain freedom to focus on your business. Host your IT Infrastructure with Cogeco Peer 1.

SECURE IT ENVIRONMENTS

We have invested in data centers so you don't have to. House your critical applications in one of our 12 data centers equipped with multi-layered security, 24x7x365 monitoring and video surveillance systems.

MAXIMUM REDUNDANCY

Power is the number one cost and the primary cause of IT infrastructure downtime. Our uninterruptible power systems (UPSs), backup generators, robust fire detection and suppression systems and advanced cooling systems ensure maximum redundancy.

SCALABLE INFRASTRUCTURE

If you want the flexibility to grow and avoid capital expenses on aligning your framework every time you expand, you need scalable colocation solutions. Stop worrying about space and personnel costs and focus on growing your business.
