

APTUM HYBRID CLOUD MANAGER

PLAN – ORCHESTRATE – SECURE – OPTIMIZE

Accelerate Your Cloud Transformation

IT leaders in organizations of all types are utilizing cloud services to transform, accelerate innovation, expand market reach, and drive efficiencies. Increasingly this is demanding a hybrid approach, combining platforms and vendors to deliver the desired business outcomes.

The resulting ecosystem of cloud computing technologies can be complex to manage and creates the urgent need for a structured approach to plan cloud deployments, govern information assets and optimize cloud spend.

Aptum Hybrid Cloud Manager enables you to accelerate your cloud initiatives by delivering the visibility and control to plan migrations, optimize spend, secure data and automate critical tasks and much more. All through a single pane of glass.

**MULTI-CLOUD
MANAGEMENT**

**CONTROL AND
OPTIMIZATION THROUGH
A SINGLE PORTAL**

**DELIVER MAXIMUM
VALUE FROM CLOUD
INVESTMENTS**

PUBLIC CLOUDS

PRIVATE CLOUD/ON-PREMISES

Unlock the Full Power of Cloud

Aptum Hybrid Cloud Manager allows you to seamlessly integrate multiple clouds with a structured approach for governing and securing data.

CLOUD MIGRATION ASSESSMENT

- Identify and compare migration recommendations for Azure and AWS

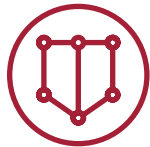

CLOUD PLANNING AND APP INSIGHTS

- Cost and Resource optimization ensuring best use of assets

BUDGET AND GOVERNANCE

- Complete visibility of all cloud spend
- Maintain control on what is provisioned - what, where, when
- Control data sovereignty, costs and lifespan of resources

SECURITY AND COMPLIANCE

- Identify and remediate high risk security issues
- Simplify management of your compliance requirements

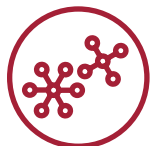

ASSET INVENTORY

- Access a global view of all assets
- Tag assets to identify and group resources accurately

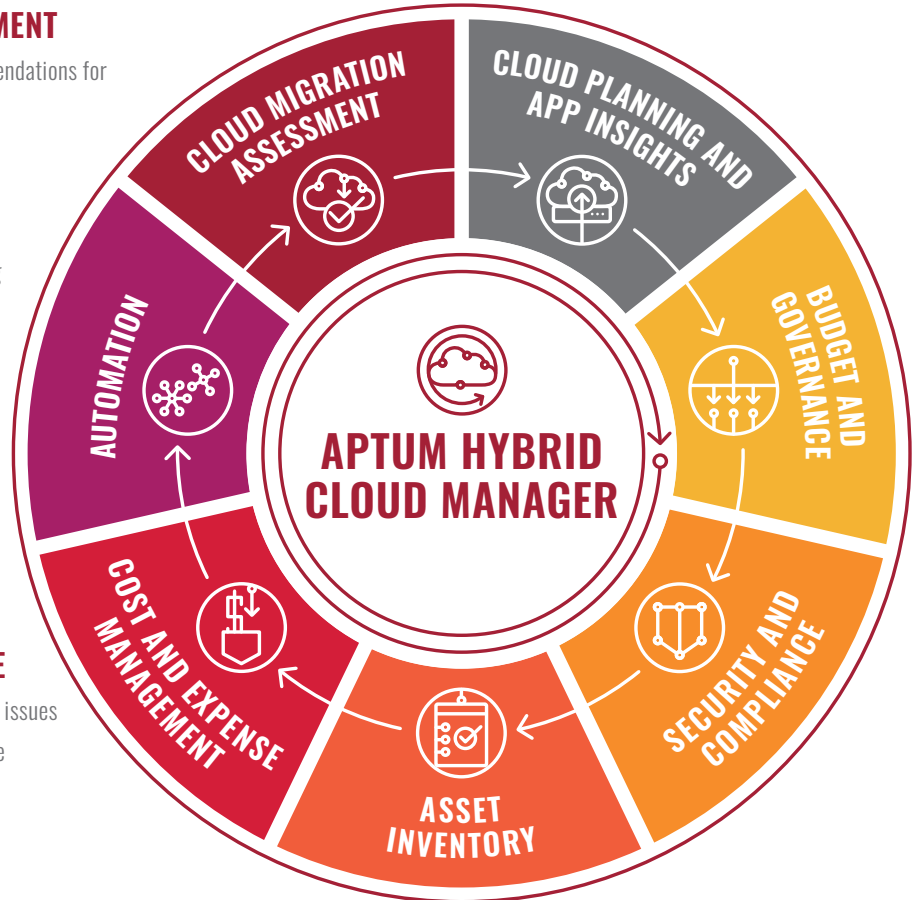

COST MANAGEMENT AND OPTIMIZATION

- Understand and measure the performance of your cloud assets
- Easily identify costs savings opportunities
- Understand billing parameters

AUTOMATION AND DEVOPS/CONTAINER SERVICES

- Efficiently deploy templates for speed and consistency
- Avoid errors in deployment
- Roll out repeatable workflows to lower level of effort
